Monique Stanley  
Hiring Manager  
Legislative Assembly  
The Informative Services Branch  
Toronto, ON

Dear Monique,

As I am done with computer engineering and I did web design and development certificate. I was selected to see for opening of new post regarding with web design course post which is Full stack developer. I hope that my level of education and dope about the development will fulfill the requirements of your company and with gratitude knowledge I will be beneficial for your organization. I am proficient in HTML, CSS and JavaScript as well as the recent completed my program taught me more about web development. In addition, I have worked with Adobe Photoshop, Illustrator, After Effects and In Design. I used these various tools for banners, advertisement, videography, image editing and printing clothes and many more. I had an experienced with this field in where I earned lots of awards of my name.

During the **WED DESIGN AND DEVELOPMENT**, I worked on various projects and you can see the glimpse of that on GITHUB. My Experience as a Front end Developer and my post- graduation education in Website and User Experience Designing is object- oriented programming, user interfaces and databases related which open many more path in this field for me.

The skills regarding to this field are as below: -

- Obtained a Bachelor of Science in Web Design and Development from Gujarat Technology University, Gujarat, India.
- Completed many website designs projects under budget and within required deadlines
- Certified in HTML, CSS and JavaScript.
- Designed a user-friendly webpage for Blackboard Inc.

I would like to enjoy this oppournity and will work with your organization with my plan and design experience and want to learn more that will improve my skills more regarding to this field.

Sincerely,  
Hemangi Likhia
